The Catalogues of the Students in the University of North-Carolina, heretofore published, have, like the present, exhibited the names of such only, as were resident members of the Institution when they were sent to the press. The whole number matriculated in the course of the year, has always been considerably greater—last year for example, it was greater in the proportion of 173 to 160. A statement of the numbers of the names upon the Annual Catalogue, for a period of twenty-two years is subjoined:

SYSTEM OF STUDIES

PREPARATORY TO ADMISSION

INTO THE

UNIVERSITY.

Applicants for admission into the Freshman Class, are required to sustain an approved examination on the Grammars of the English, Latin and Greek Languages, including Latin Prosody; Mair's Introduction; Cæsar's Commentaries (five books); Ovid's Metamorphoses (Gould's Edition —extracts from the first six books); Virgil's Bucolics and six Books of the Æneid; Sallust; Greek Testament (St. John's Gospel and Acts of the Apostles); Græca Minora, or Greek Reader; Arithmetic; Ancient and Modern Geography.

The importance of a full and faithful compliance with these requisitions, cannot be too highly estimated by Parents and Guardians. If they desire that their sons and wards shall attain sound scholarship, they must look well to the foundation on which the superstructure is to be reared.

Of the preparatory studies, the branches on which Candidates for admission into College are frequently found either wholly deficient, or imperfectly prepared, are Arithmetic, Ancient Geography and Prosody.

The use of Emerson's Arithmetic (third part), and Worcester's Geography and Atlas, are recommended to Instructors who are preparing Students for the University.

The Collegiate year is divided into two Sessions or terms, the one commencing six weeks after the first Thursday in June, the other six weeks after the fourth Friday in November.

The Classes, (with the exception of the Senior,) recite in two divisions, each division occupying an hour. By this arrangement, six hours are devoted to recitations and lectures on Tuesday, Wednesday, Thursday and Friday. Monday has but four; the forenoon of Saturday is set apart for the meetings of the two Literary Societies.

Composition and Declamation receive due attention throughout the whole course. The three lower classes are required to declaim in private before the Professor of Rhetoric, and afterwards in the presence of the Faculty.

The Senior Class deliver Orations of their own composition upon the public stage twice in each session.

All the Classes are required to attend Divine Worship in the College Chapel on Sunday forenoon, and in the afternoon to recite on the Historical parts of the Old and New Testaments.

The instruction of the Freshman Class, is confided, for the most part, to the Tutor of Ancient Languages, and the Tutor of Mathematics.

By the division of the Department of Ancient Languages into two branches, with a Professor to each, and the appointment of a Professor of Rhetoric, very ample means of instruction are afforded in these studies, while the other Professors are enabled to give increased attention to their more peculiar duties.

In addition to National and Constitutional Law, the President gives instruction in Mental and Moral Philosophy, and in Political Economy.

A regular course of Lectures on Chemistry, Mineralogy and Geology, illustrated by experiments, and the exhibition of specimens, is delivered to the Senior Class, by the Professor of Chemistry, who also gives occasional Lectures on the other departments of Natural History.

To the means of instruction and improvement heretofore enjoyed in this department, will be added in the course of the present Collegiate year, a Cabinet of Minerals purchased for the University in Vienna by the Secretary of the Legation of the United States, near the Court of Austria.

The recitations of the Professor of Mathematics and Natural Philosophy are illustrated by experimental Lectures with an Apparatus selected by the late Dr. Caldwell, during a visit made by him to Europe, some years since, for that purpose.

The College buildings have undergone thorough repair. Extensive improvements are now in progress; and others are in contemplation. Increased efficiency has been imparted to the system of Instruction: More attention is paid to neatness and comfort in the Police of the Institution; and energetic measures have been adopted for confining the expenses of Education within reasonable limits.

Reports of the deportment and scholarship of the Students are sent home to their Parents and Guardians at the close of each Session, and at such other times as the Faculty may direct.

ANNUAL EXPENSES.

Tuition	$50		$50
Room rent	2		2
Servant hire	5		5
Deposit	4		4
Board for 40 weeks, at $8 to $11, per month	74	to	102
Bed and Washing	16	to	22
Wood	5		5
Candles	5		5
Total from	161		195

Board of a quality not inferior to what is furnished at the Tables of the most respectable Boarding Houses of the neighbouring villages, may be had at the Steward's Hall and elsewhere at $8 per month. In addition to the above expenses, there are those incurred for books, pocket-money, and certain others, incident to a connexion with the Literary Societies, the amount of which is fixed by the private regulations of those bodies.

The whole series of books, for the four years, may be purchased for $60 or $70. It is desirable that every Student shall retain his Text Books, and take them with him when he leaves College; but as in most instances, they are parted with to the succeeding classes, at a reduced price, this item of expense is thereby rendered less burthensome to many.

Every Student is required, on his arrival at the commencement of each Session, to deliver to the Bursar (Professor Mitchell) the moneys and drafts for money, which he has brought with him.

It is the duty of the Bursar to attend to the settlement of the demands of board, &c.—to pay into the hands of the Student

such sums as are required for other current expenses, as they may be called for, and to render an account of his proceedings to the Parent or Guardian, at the close of the Session.

The Merchants in this place have entered into an engagement, that the system of unlimited credits, heretofore in use, shall be abandoned; and that they will confine themselves in this particular, to those cases in which the Parent or Guardian has previously given a specific and definite sanction, and thus rendered the transaction his own. From the statements detailed above, it will be seen what amount of money a young man is likely to require. With the safeguards therefore that have been provided, there is every reasonable security, if the regulations of the Trustees are complied with, that there will be no disappointment in regard to the expense of an Education at this University.

The Faculty concur in the opinion expressed upon this subject by the *Executive Committee*, in the Circular Address to Parents and Guardians on the 15th April, 1837, that exclusive of the supplies of clothing ordinarily obtained from home, more than two hundred and fifty dollars is not necessary, to either the comfort or convenience of any young man while at this Institution.

The Faculty are authorized in all cases, when the applicant is a native of the State, sustains a fair moral character, and upon examination, is believed to possess the requisite mental endowments, natural and acquired, and is unable to pay the Tuition Fees, to admit him into any Class, for which he may be prepared, without charge for either Tuition or room-rent.

THE ANNUAL COMMENCEMENT

Is on the first Thursday in June.—Candidates for admission are examined eight days previous.

The Philanthropic and Dialectic Societies select, alternately, one of their members to deliver an Address before the two bodies, on the forenoon of the day preceding the Commencement.

A Graduate of the Institution, is in like manner chosen, annually, to Address the Alumni and the Graduating Class, on the afternoon of the day on which the Address is delivered before the two Societies.
